ABOUT THE GLOBAL ALLIANCE FOR CARE

The Global Alliance for Care (GAC) is the first global multi-stakeholder community that facilitates and fosters spaces for collective action, advocacy, communication, and learning about care, its recognition as a need, as a work, and as a right. It is an articulation between governments, civil society, union associations, the philanthropic sector, international organizations, and academia seeking to advance the care agenda from the local to the global level.

Download the **brochure** with more information on the Alliance [here](#).
